STRATEGIC CONTEXT & FRAMING COUNCIL DISCUSSION

Relationship to Metro's Strategic Plan, racial equity, and climate action goals

By funding additional expenditures for operations, the Agency will more efficiently be able to focus on programming related to our guiding principles of racial justice, climate justice and resiliency, and shared prosperity.

Known Opposition: None known.

Legal Antecedents: ORS 294.463(1) provides for transfers of appropriations within a fund, including transfers from contingency that do not exceed 15 percent of a fund's appropriation if such transfers are authorized by official resolution or ordinance of the governing body. ORS 294.463(3) provides for transfers of appropriations or of appropriations and a like amount of budget resources between funds of the municipal corporation when authorized by an official resolution or ordinance of the governing body stating the need for the transfer. ORS 294.338(2) allows an increase in appropriations due to specific purpose grants or gifts when authorized by an official resolution or ordinance of the governing body stating the need for the recognition. ORS 294.338(3) allows an increase in appropriations when a request for services, the cost of which is supplied by another entity, necessitates a greater expenditure of public money for any specific purpose in order to provide the services when authorized by an official resolution or ordinance of the governing body stating the need for the recognition. ORS 294.463 (4) provides that public testimony be allowed if any funds are changing by more than 10 percent of a fund's expenditures. Metro code chapter 2.02.040 requires the Metro Council to approve the addition of any position to the budget. Metro's adopted financial policies require any project exceeding \$100,000 or an existing CIP project increasing greater than 20 percent to receive Council approval. ORS 294.471 allows for pressing and necessary changes, by supplemental budget, that could not be reasonably foreseen during budget development.
