## 12495 SW 172nd - Beaverton - BRIDGE Housing Corporation

The new affordable housing in South Cooper Mountain will be a four-story, wood-framed, 75 unit building. The project will include 29 one bedroom, 39 two bedroom and 7 three bedroom apartments (including a manager's unit). Fourteen of the units will be affordable to households earning 30% of Area Median Income (AMI) and these units will be distributed evenly amongst different unit sizes.

This project will be one of the first regulated affordable housing projects in Southwest Beaverton, along with the Wishcamper project funded by the City of Beaverton's allocation of Metro Housing Bond funds. All of the City of Beaverton's existing inventory of regulated affordable housing is located downtown or in North Beaverton. There is currently no regulated affordable housing in South Beaverton, Neighbors Southwest, Sexton Mountain, or the newly incorporated South Cooper Mountain area.

Nearby amenities include the high-achieving Mountainside High School across from the property, Cooper Mountain Nature Park and Paul and Verna Winkleman Park. There is also excellent access to retail and groceries. Although transit amenities are not readily available, TriMet plans to extend bus line 56 to South Cooper Mountain, connecting the area with the whole public transit system. The project will include a sizeable play area, a courtyard, ample surface parking and community gardens. Interior amenities include a community room with a warming kitchen, resident service office, onsite leasing offices bike rooms, and laundry facilities on every floor. The development will provide 108 parking spaces.

## Development program

BRIDGE's Altura project is 75 units, including 29 one-bedroom, 39 two-bedroom and seven three-bedroom apartments.
