This fund management tool allows agencies to incur costs on a project and submit the full or partial amount later for Federal reimbursement if the project is approved for funding. Advance construction can be used to fund emergency relief efforts and for any project listed in the STIP, including surface transportation, interstate, bridge, and safety projects. The use of Advance Construction is normally only by the state DOT to help leverage their funding resources and keep projects on their respective delivery schedules.

SUBJECT: Agenda Item O - Quarterly ADA Delivery Program STIP Adjustment

Requested Action:

Approve the attached list of added and modified projects to the 2024-2027 Statewide Transportation Improvement Program (STIP).

Background:
In 2017, the Oregon Department of Transportation entered into a settlement agreement with the Association of Oregon Centers for Independent Living and implemented a dedicated ADA Program to bring nearly 26,000 curb ramps up to current standards. The 15-year settlement agreement specifies that 30% of the curb ramps are compliant by 2022, 75% of the curb ramps are compliant by 2027, and 100% of the curb ramps are compliant by 2032.

Advance Construction ADVCON (AC funds)	A funding placeholder tool. This fund management tool allows agencies to incur costs on a project and submit the full or partial amount later for Federal reimbursement if the project is approved for funding. Advance construction can be used to fund emergency relief efforts and for any project listed in the STIP, including surface transportation, interstate, bridge, and safety projects. The use of Advance Construction is normally only by the state DOT to help leverage their funding resources and keep projects on their respective delivery schedules.

SUBJECT: Agenda Item O - Quarterly ADA Delivery Program STIP Adjustment

Requested Action:

Approve the attached list of added and modified projects to the 2024-2027 Statewide Transportation Improvement Program (STIP).

Background:

In 2017, the Oregon Department of Transportation entered into a settlement agreement with the Association of Oregon Centers for Independent Living and implemented a dedicated ADA Program to bring nearly 26,000 curb ramps up to current standards. The 15-year settlement agreement specifies that 30% of the curb ramps are compliant by 2022, 75% of the curb ramps are compliant by 2027, and 100% of the curb ramps are compliant by 2032.

FORMAL MTIP AMENDMENT STAFF REPORT

Amendment Purpose Statement

FOR THE PURPOSE OF ADDING OR AMENDING NINE PROJECTS TO THE 2024-27 MTIP INCLUDING SIX NEW AMERICANS WITH DISABILITIES ACT UPGRADE PROJECTS TO MEET FEDERAL PROJECT DELIVERY REQUIREMENTS

BACKROUND

What This Is - Amendment Summary:

The January 2025 Formal Metropolitan Transportation Improvement Program (MTIP) Formal/Full Amendment represents the regular monthly formal amendment submission and contains nine projects. Six projects are new ODOT funded Americans with Disabilities Act (ADA) upgrades, one project adds a new Congressionally Directed Spending (CDS) award with the remaining two existing projects addressing funding issues. Three of the new ODOT ADA upgrade projects add construction and Utility Relocation implementation phases. Final proposed project site locations have now been identified within the project limits. The staff report includes three attachments that include the project site locations for the three ADA implementation phase projects.

What is the requested action?

JPACT met on January 16 2025 and approved Resolution 25-5456 to complete all required MTIP programming actions for the nine projects in the January 2025 MTIP Formal Amendment and now requests Metro Council provide the final approval.

1/10/2025 TPAC Meeting Summary: TPAC met on January 10, 2025. TPAC members received their official notification and overview of the project amendments within the January 2025 Formal Amendment bundle. TPAC members raised a couple of questions about how the funding for the ADA projects occur and the reprogramming background about the Columbia Slough Bridge project. Chris Ford, ODOT, provided updates to both, but also cautioned that the details for the ADA allocations occur through OTC and the Bridge program controls how the bridge program funds are use, redirected, and reprogrammed. With no further discussion, TPAC unanimously provided their approval recommendation

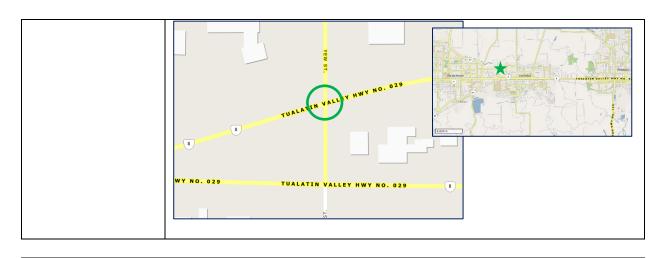

DATE: JANUARY 16, 2025

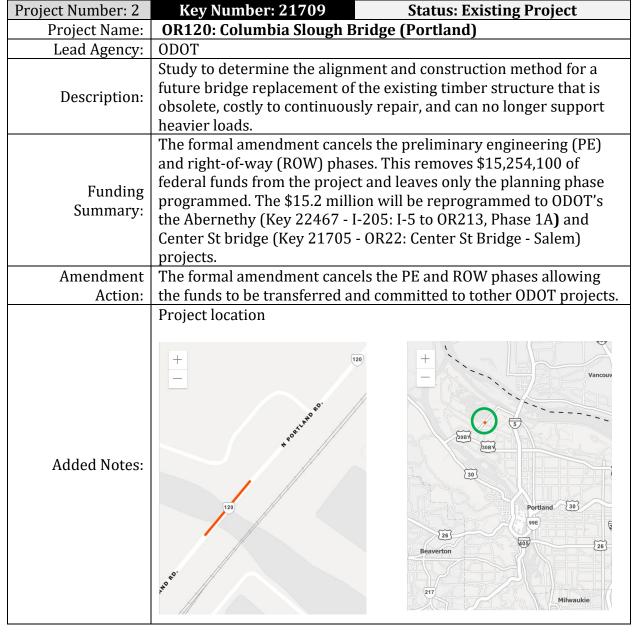

for JPACT to approve Resolution 25-5456 which includes the nine projects in the amendment bundle.

JPACT 1/16/2025 Meeting Summary: JPACT met on January 16, 2025. The January 2025 Formal MTIP Amendment under Resolution 25-5456 was included as part of the Consent Calendar agenda. JPACT approved the Consent Calendar unanimously which included the January 2025 MTIP Formal amendment without added discussion. The January 2025 MTIP Formal Amendment bundle now moves on to Metro Council for final Metro approval.

A summary of the project amendments are stated in the following tables.

ADA Upgrade Projects Summary:

The next six projects represent new ODOT funded ADA upgrade projects being added to the MTIP.

ADA Program Upgrade Summary (From the December 4, 2024 OTC staff report item):

In 2017, the Oregon Department of Transportation entered into a settlement agreement with the Association of Oregon Centers for Independent Living and implemented a dedicated ADA Program to bring nearly 26,000 curb ramps up to current standards. The 15-year settlement agreement specifies that 30% of the curb ramps are compliant by 2022, 75% of the curb ramps are compliant by 2027, and 100% of the curb ramps are compliant by 2032.

Initially, design funds are used to conduct the required survey and preliminary engineering needed to establish each ramp footprint. Programming cost estimates for ADA Delivery Program projects use a statewide average per ramp cost multiplied by the number of curb ramps in each project. The actual cost of individual curb ramps vary based on the complexity of each location and this is refined as project design progresses, at which time the project funding is adjusted as needed for construction. Standard inflation factors are added based on scheduled construction year. ADA Delivery Program Funds remaining from the previous STIP cycle have been returned to the Program's bottom line, as an outcome of projects being completed for less than the originally programmed amount. As a result of those actions, the Program currently has \$27,000,000 remaining from completed STIP projects, which can now be allocated to other ADA projects. Funding for the ADA Delivery Program is allocated in the 2024-2027 STIP. Funds are distributed from this reserve to individual projects through this quarterly STIP amendment process.

All six projects required OTC approval to authorize and commit the funding for the projects. OTC approval occurred during their December 4, 2024 meeting. The proposed funding responsibility will be from State GARVEE bonds. MTIP programming will utilize Advance Construction fund code (AC) with the expected conversion code being GARVEE bonds (or AC-GARVEE). The OTC's approval included:

- Amendments on 25 individual ADA projects.
- Moving funds out of 7 ADA funding buckets (*project grouping funding buckets*).
- Adding 15 new projects (*statewide*).
- Adding construction phases to 3 existing projects (non-Region 1 projects).
- Utilizing funds already committed to ADA Delivery Program.

The Six New ADA Projects:

Three of the six projects include implementation phases (utility relocation and construction). This reflects that the final site locations are now defined. This staff report contains three attachments listing the final site locations for reference for the ADA

upgrades. Three projects are just starting and include funding for preliminary engineering (PE). The site locations are not yet finalized within their stated project location. ODOT will determine the final site locations for these three projects through the PE phase. A summary of the six new ADA now follows.

METRO REQUIRED PROJECT AMENDMENT REVIEWS

In accordance with 23 CFR 450.316-328, Metro is responsible for reviewing and ensuring MTIP amendments comply with all federal programming requirements. Each project and their requested changes are evaluated against multiple MTIP programming review factors that originate from 23 CFR 450.316-328. They primarily are designed to ensure the MTIP is fiscally constrained, consistent with the approved RTP, and provides transparency in their updates, changes, and/or implementation. The programming factors include ensuring that the project amendments:

APPROVAL STEPS AND TIMING

Metro's approval process for formal amendment includes multiple steps. The required approvals for the January 2025 Formal MTIP amendment (JA25-04-JAN1) will include the following actions:

- Are eligible and required to be programmed in the MTIP.
- Properly demonstrate fiscal constraint.
- Pass the RTP consistency review which requires a confirmation that the project(s) are identified in the current approved constrained RTP either as a stand- alone project or in an approved project grouping bucket.
- Are consistent with RTP project costs when compared with programming amounts in the MTIP.

DATE: JANUARY 16, 2025

Target Date

- If a capacity enhancing project, the project is identified in the approved Metro modeling network and included in transportation demand modeling for performance analysis.
- Supports RTP goals and strategies consistency: Meets one or more goals or strategies identified in the current RTP.
- Contains applicable project scope elements that can be applied to Metro's performance requirements.
- Verified to be part of the Metro's annual Unified Planning Work Program (UPWP) for planning projects that may not be specifically identified in the RTP.
- Verified that the project location is part of the Metro regional transportation network, and is considered regionally significant, or required to be programmed in the MTIP per USDOT direction.
- Verified that the project and lead agency are eligible to receive, obligate, and expend federal funds.
- Does not violate supplemental directive guidance from FHWA/FTA's approved Amendment Matrix.
- Reviewed and evaluated to determine if Performance Measurements will or will not apply.
- Successfully complete the required 30-day Public Notification/Opportunity to Comment period.
- Meets other MPO responsibility actions including project monitoring, fund obligations, and expenditure of allocated funds in a timely fashion.

SUBJECT: Agenda Item O – Quarterly ADA Delivery Program STIP Adjustment

Requested Action:

Approve the attached list of added and modified projects to the 2024-2027 Statewide Transportation Improvement Program (STIP).

Background:

In 2017, the Oregon Department of Transportation entered into a settlement agreement with the Association of Oregon Centers for Independent Living and implemented a dedicated ADA Program to bring nearly 26,000 curb ramps up to current standards. The 15-year settlement agreement specifies that 30% of the curb ramps are compliant by 2022, 75% of the curb ramps are compliant by 2027, and 100% of the curb ramps are compliant by 2032.

While we have a statewide inventory of curb ramp locations, we have limited preliminary scoping information for each individual ramp. To establish individual ramp construction projects, we initiate projects based on a suite of intersections in a corridor, then initiate design and strategically bundle projects for construction. In the delivery of curb ramp projects, the primary risks are schedule-related — which is most often impacted by right-of-way acquisition, environmental clearances, and utility relocations.

Initially, design funds are used to conduct the required survey and preliminary engineering needed to establish each ramp footprint. Programming cost estimates for ADA Delivery Program projects use a statewide average per ramp cost multiplied by the number of curb ramps in each project. The actual cost of individual curb ramps vary based on the complexity of each location and this is refined as project design progresses, at which time the project funding is adjusted as needed for construction. Standard inflation factors are added based on scheduled construction year. ADA Delivery Program Funds remaining from the previous STIP cycle have been returned to the Program's bottom line, as an outcome of projects being completed for less than the originally programmed amount. As a result of those actions, the Program currently has \$27,000,000 remaining from completed STIP projects, which can now be allocated to other ADA projects.

Funding for the ADA Delivery Program is allocated in the 2024-2027 STIP. Funds are distributed from this reserve to individual projects through this quarterly STIP amendment process. This

Oregon Transportation Commission Page 2

quarterly STIP amendment request follows the same approach as previous ADA project funding requests brought before the Commission.

This quarterly amendment moves funds from seven of the ADA Delivery Program's right of way and construction funding reserves to 19 individual projects and reallocates a portion of the bottom line into current projects.

Outcomes:

The preferred outcome is to obtain Commission approval to move forward with this quarter's amendments in a programmatic fashion. An alternative would be to review and approve each individual project under the agreed upon STIP amendment delegations for the Commission, Director or Delivery and Operations Division Administrator. Staff prefer the programmatic solution to ensure there is awareness and transparency.
